THE THEMES OF THIS YEAR'S CONFERENCE WILL BE:

I. The valuation of business assets and businesses, including tangible and intangible assets, goodwill and trademarks.
II. Properties in public ownership and applying different valuation approaches.
III. Taking the taxation of investment properties (commercial and residential) related to sale and lease valuations into account.

Presentations on these themes and other topical issues are very important and very welcome!

CALL FOR PAPERS AND PRESENTATIONS

Should you wish to give a presentation of your own, we would ask you to submit an abstract to Tiia Redi (bvc2015@ekhy.ee) by 26 June. The length of your abstract should be 300-500 words. Presenters are not obliged to provide the full papers of their presentation – an abstract and PowerPoint slides (deadline: 3 September 2015) will suffice. If you wish to provide your full paper, we will add it to the conference materials.

Peer review process

If you wish to have your paper reviewed and published in a scientific journal, this will happen through the Nordic Journal of Surveying and Real Estate Research (NJSR). The NJSR is a scientific referee journal. Every paper goes through a double-blind peer review process inviting three and utilising at least two reviewers from the same field as the author, who are asked to complete their review within four weeks.

Reviewed papers are subject to the same deadlines as non-reviewed presentations in terms of abstract and presentation submission. The full paper itself "lives its own life" in the NJSR review and publication process.

Please note that the official language of the conference is English.

On behalf of the organising committee, welcome to BVC 2015 and Estonia!
